ECI ALWAYS APPLIES ACADEMIC APPROACH TO THE CLASSES

ECI Curriculum and methodology evolve and shape according to the needs of the students. Most of our students are within Intermediate and Advanced levels thus the classes are tailored to meet the academic needs of the student: emphasis has been made on research paper writing, as well as paraphrasing and summary. The Grammar classes go beyond foundational grammar and extend into the comprehensive analysis of clauses (adjective, adverbial, noun) as well as giving analytical approach of the relationship of the components of the sentence (syntax). Students also have been reading college advanced texts with comprehensive academic vocabulary.
